

## Quantitative analysis of 1.000 users that filed original claim or BDD

Christian Valla, September 24, 2021

Of the 1.000 users, 18 users filed a BDD claim

The 18 users that filed a **BDD** had 380 conditions in total, **21.1 conditions in average**, a much higher number of conditions than for the veterans filing normal claims (4.6).

The remaining 882 users filed a **normal claim**. The veterans listed **4.6 conditions in average**.

**808 of 1.000 users listed 6 or less conditions.**

34 users (of 1k) listed 20 conditions or more.

15 users (of 1k) listed 30 or more conditions.

8 users (of 1k) listed 42 conditions or more (up to 99).

**Mode = 1 condition per user** (most common number of conditions). 371 users listed 1 condition in their claim.

**Median = 2 conditions per user** (the middle number in the data set)
